EXPERIENCE

VanNoppen Marketing, Morganton, NC — *Web Developer*

July 2019 - April 2020

Working at VanNoppen Marketing gave me a wonderful experience which included working in a small team to develop custom websites using Python and HTML every day. I also gained experience with JavaScript, PHP, and CSS. This also includes meeting with and discussing marketing opportunities with many clients. I also have remote work experience with this position.

Harrah's Cherokee Casino, Cherokee, NC — *Table Games Dealer*

June 2018 - April 2019

Working as a Blackjack Dealer required me to follow a strict protocol while working. This also gave me great experience in customer service since I primarily spent my time interacting with customers.

Kobe Express, Sylva, NC — *Cashier/Expediter*

August 2016 - September 2018

I helped to train and coordinate kitchen staff and front of house staff. Also, when technical problems presented themselves, I would handle any IT issues while working.

EDUCATION

Western Carolina University, Cullowhee, NC — *B.S. Computer Science*

August 2015 - May 2019

LANGUAGES

I am well versed in Java, JavaScript, Python, PostgreSQL, and Linux. I currently use VScode as a work environment and have experience with many others.

I have some experience with C, PHP, CSS, LaTeX, MySQL, SQL Lite, RUBY, and some command shell scripting.
